Questio tertia

Utrum [illegible] felicitatis sit scientia [illegible]

[illegible]

Queritur quarto

Utrum bonum sit quod omnia appetunt. Et arguitur quod non, quia Deus et materia prima non appetunt, igitur questio falsa. Probatio antecedentis: prima pars, quia omnis appetitus est eius quo caret, ut patet primo Physicorum; Deus non caret, igitur non appetit. Probatio secunde partis: materia non cognoscit, sed appetitus sequitur cognitionem, ut patet 3o De anima. 2o malum non appetit bonum, igitur questio falsa. Antecedens: unum contrariorum non appetit reliquum, sed bonum et malum sunt contraria, igitur malum non appetit bonum. Antecedens patet, quia unum contrarium corrumpit reliquum, sed nichil sic appetit suum corruptivum, ut patet de se. 3o appetitus contrarii sunt in genere, et ambo sunt in bono, igitur quod bonum non contrariatur bono. 4o aliquis separat se omni bono, igitur non appetit bonum, antecedens de desperatis. Oppositum dicit philosophus in primo huius.

no Notandum quod triplex est appetitus: scilicet naturalis, sensitivus et intellectualis. Naturalis appetitus est quo quelibet potentia tendit ad actum per suum inclinationem ad actum vel sui quietem, et iste sit sine cognitione. Ex quo sequitur quod quelibet ens habeat naturalem appetitum, sive cognoscit sive non, quia quodlibet ens est actu vel in potentia, quod inclinatur ad actum vel sui quietem. Appetitus sensitivus est inclinatio ad rem apprehensam per sensum, quam sensus indicabat de bonitate vel malicia in comparatione. Appetitus intellectualis est inclinatio ad rem intellectam per intellectum, quam intellectus indicabat de eius bonitate vel malicia, et iste appetitus vocatur voluntas.

no 2o Notandum 2o dupliciter appetit bonum: vel in propria forma, aliquando per assimilationem, sicut quod illud bono alicui bonum appetunt esse simile. Notandum 3o adhuc duplex est appetitus: quidam est ad acquirendum id quod non habet, et alius est ad acquisitum acquirendum, ut habitum conservandum, ut est eius quod caret et alius non.

9o f Conclusio prima: omnia naturali appetitu quoddam bonum appetunt, quia quodlibet ens ad aliquod tendit ab eo sed quod communiter agit sua forma operans, ergo primum ens sit maxime bonum et maxime appetat bonum, ut 12o Metaphysice. 2o quodlibet ens est bonum et appetit bonum, sed quod Deus formam dat quam forma, ergo si appetitus autem debet esse frustra, ut quod in conducit ad aliquem actum bonum et naturalem illi, autem est appetitus naturalis etc. autem notandum appetitus naturalis ut patet primo Physicorum, non est igitur ita. Conclusio 2a: nullum est bonum quod omnia appetunt sicut primum sit quod nullum bonum sicut prout

adepti, igitur questio non quam quod appetitus non est in impossibile autem et inter entia est ordo, quod aliqua sint perfectiora quam alia, bonum prout adeptum est ad minus perfecta. Conclusio 3a: bonum omnia appetunt per assimilationem, patet primum quod est cui omnia appetunt assimilari, igitur quod nam dicitur ex 2o De anima. Et philosophus dicit quod omnia agunt propter illud, nam quantum ipsi possunt ei participent prout possunt. Ad rationes ante oppositum patent per conclusiones. Ad 2am dicitur negando antecedens. Ad probationem negatur quod bonum et malum sint contraria eodem modo, cum contrarie ponitur supponunt per subiecta quibus inhereat bonitas et malicia, sed subiecta non sunt contraria. Si autem bonum et malum accipiuntur abstracte, tunc opponuntur privative, et malum est privatio, et quod privatio nichil est, igitur nichil appetit. Ad 3am negatur quia quod utrumque contrariorum bonum est ut omnia contraria opponuntur ut bonum et malum. Ad 4am dicitur negando quod desperatus se bono appetit liberari de miseria quod credit esse bonum, et sic appetit bonum etc. ad questionem.

Queritur quinto

Utrum omnes actus humani ordinentur in unum ultimum finem. Arguitur quod non, quia aliquorum finis est divinus, sed appetitus divinus est in infinitum, igitur prima pars falsa. 2o sequeretur quod esset nobilius, ut experimentis nobilius esse actus, quod non potest esse finis, cum finis debeat esse nobilior ordinatis ad finem. Et confirmatur ut esset ad operari animalis, ut non operari non potest, quod omnibus operacionibus animalis humanis persone, ut 2m quod hoc esset Deus, sed primus non adipiscimur finem ad adipiscimur. 3o quia finis de quo hic agitur est actio humana, sed nulla actio in est quodam optimum finis ad est quodam optimum, igitur quod finis hominis est actio, ergo non omnis actus humanus ordinatur in unum ultimum finem. quedam

quia quod multa ordinantur in se invicem. 4o quia contraria non tendunt in eundem finem, sed multi actus humani sunt contrarii, igitur antecedens patet, quia contraria tendunt in contraria, sed bonum patet de se. 5o nonne voluntas libera, ergo potest tendere in unum finem et in alium. Oppositum dicit philosophus in primo huius. Notandum quod in diffinitione ordinate et explicite, sed autem oppositum est polita finis quod arguitur de finibus actuum ordinatorum. Conclusio prima: omnes operationes humane ordinantur in unum finem

ultimum et optimum patet quia ad attingendum ultimum finem actus
finalis cuiuslibet felicitas patet 1° methaphisice 2° phisicorum patet
2° phisicorum ubi dicit quod finis non est simpliciter ultimum
sed optimum. Consequentia tenet cum est finis ultimus et
optimus ergo omnes actus humani diriguntur patet
sed est in aliquo mundo ut debet esse in unum ergo in
uno fine ultimo et optimo in aliquo mundo omnia or-
dinantur, probo in uno mundo qui est homo in unum fi-
nem ultimum et optimum omnia debent ordinari patet
per quemlibet sentencie 12° patet capitulo 12° methaphisice
Contra non omnes actus humanos esse bonos
propter hoc quod ordinantur in finem optimum patet quia ali-
qui actus humani contrarii dicuntur sentencie in fi-
nem optimum et ex hoc essent boni tamen plus licet de-
ficiunt et deffectuose propter hoc non sunt boni.
Contra 2a ~~ad bonum omnia appetunt cum attingant~~
finem optimum non quilibet actus humanus attin-
git patet aliqui actus humani sunt imperfecti
et ordinantur magis perfectos et tales non attin-
gunt optimum finem. 1° igitur tamen quia non
quilibet actus est perfectus qui finem optimum
non attingens patet sufficit actu qui non est perfectus
sed ordinatur in alios actus per quos tandem attin-
gatur ille finis ultimus. Igitur contra omnes
actus bonos sunt et perfecti patet actus qui non
dicuntur esse perfecti vel mediate vel immediate finem optimum dicuntur
attingere sed licet actus maliciae ordinentur in
finem optimum tamen propter ipsum non mediate nec immediate at-
tingit sed tamen aliud corpore pertinentis. Ad rationes
prima patet est. Ad 2am patet dicitur quod sicut intentionis
ad impossibile vult esse ~~actus~~ actus contra, dicitur
finis est nobilior actus, dicitur quod ille actus est no-
bilius omnibus operationibus quia omnes operationes
ad ordinantur in ultimum finem. Ad aliud patet dicitur quod fi-
nis simpliciter ultimus sit deus ad impossibile rationem di-
vinum non adipiscimur. Quod non ideo quia adipisci
hoc est quod ei maxime assimilari est ipsum adipis-
ci. Ad 3am dicitur quod actus humanus est quidam optimum
in ordine ad alios actus humanos. Ad quartum
dicitur quod quando dicitur in textu de actibus humanis in ad
ordinatis ad finem ultimum et ad aliud, ad probandum dicitur quod
contraria non tendunt in genera sub ratione boni et
maliciae sed propter sunt diversa secundum genus sub ratione ali-
cuius contrarietatis sive in predicamento contrariorum est

bonum ad a ultimum finem quia non quibus liberalitas bo-
nis consistit in hoc quod possit tendere nisi in ulti-
mum finem sed est alia questio

Queritur sexto

Utrum scientia intitulata pollitica sit de summo hominis bono.
Arguitur quod non, si sit, tunc pollitica esset ita principalis sicut
ethica sed tamen pollitica sit scientia per ethice. Consequentia
falsa quia quia ethica considerat summum bonum ho-
minis tamquam suum finem sed etiam pollitica considerat esse
summum bonum tunc licet finem ita quemadmodum sed ethi-
ca et per consequens est scientia ita principalis sed ethica.
Contra scientia est nobilior tanto dicitur de fine nobiliori
considerare sed methaphisica est prima; ergo ipsa de fine
nobilissimo dicitur considerare, sed tale est summum bonum, patet
2° huius licet 6 huius et 2° methaphisice. Sed dicitur quod sit
prima est finis nobilissimus cum finis tamen est metaphisica
3° summum bonum hominis consistit in speculatione
sed considerare de eo non spectat ad pollitica cum ita sit
practica et non speculativa. Quod pollitica sive ethica est
scientia specialis. Secundo dicitur licet finis specialis sed summum
bonum hominis non est finis specialis sed quoniam
omnes alios fines complectens et optimum patet
per aristotelem primo huius ubi dicit quod idem est bonum
uni et civitati et tamen bonum hominis. Uni sit
bonum hominis sed quod bonum civitati sit summum
bonum hominis sed pollitica considerat bonum civitatis
sed etiam considerat summum bonum hominis. Non quia mo-
ralis considerat de summo bono hominis quod competit
per ipsum homo est felicitas non in se ad omnem vel ad
~~civitatem~~ domum sed pollitica de tali bono quomodo
attribuitur cohabitantibus in civitate dicitur tamen
diversificatur quod quamlibet comparationem attribui-
tur alio quod quod talem bonum attingit. Secundo yconomica
est de eodem bono in ordine ad cohabitantes in
domo. Consequentia pollitica considerat summum bonum
hominis patet pollitica considerat summum bonum homo
civitatis sed etiam summum bonum hominis quadam
ratione quod idem est bonum civitatis ~~et summum bonum~~
et hominis ut dicitur per allegata primo huius
~~sed~~ consequentia scientia considerat summum bonum hominis quod est
principalissima architectonica pollitica est huiusmodi probatur aliter
non quia fines architectonicarum sunt desiderabi-
liores finibus aliarum in se ipsis ut patet primo huius
secundo tractatu principali sed tamen architectonica est

communicari. Non 2o quod sit cupidus pecunias dicit philosophus circa usus earum vero magis sunt propie alicuius quam vitaciis. 1o magis sunt alicuius vel sunt propie adhuc dicendo potest circa usus earum dominus magis dicuntur pali(ci)eis. 2o magis dicuntur simpliciter non perdendo sed alienas pecunias. Contra 3a liberalitas est circa pecunias per liberalitas est circa ea circa que se habendo bene liberalis laudatur. Si ergo sunt pecunie in a. de ethicorum tunc sequitur quod liberalis non laudatur bene se habendo in bellicis et in aliis quare sequitur bene etiam in indiciis sed circa datorum et sumptorum. Contra 2a liberalitas est unus molis circa amicitia per adversitatem et modum indiget(?) inspecie partium dispartitas indigentias dividit unibus circa pecunias ~~alienas et proprias~~ quod communicant paliens sunt inspecie dispartitas parvum in hic indiget divisis virtutibus aliis non quod aliqui sunt in pecuniis. Pa solutio circa pecunias alienas et [illegible] proprias quod contrahitur paliens circa eas esse et iusticia quod sunt propie quod dant paliens ut dicit 2us nolle circa eas que est liberalitas. Contra 3a liberalitas est una bene ordinata circa bonum(?) quia ordinata est virtus cardinalis et liberalitas non in 4o ita. Ad rationes ad primam dicendum quod liberalitas est circa pecunias tamquam circa obiectum remotum sed sicut datio est circa proxima bellica tamquam obiectum remotum sed est circa operationes scilicet dationes et receptiones tamquam circa obiectum proximum sed est circa pauces ut alibi et impossibile 2e 9o(?) aliqua circa obiectum proximissimum. Ad 2am dicendum quod liberalis retinet sibi bona bonis exteriora sibi circa necessaria acquirit sibi maxima bona interiora scilicet bona virtutis. Dicitur ergo dare et recipere conveniunt

Arguitur quod liberalitas est bona virtus et ipse simpliciter quod fuerint actus et per opposita non sunt actus sunt actus liberalitatis quia proprie quod virtutes et proprie quod dicitur prodigalitas 2o per dare et conveniens per dicit dicendum quod requiritur ad felicitatem sed prodigus per hoc sunt actus nature ad actus boni dicunt proximo adhaerere feliciter expositio dicit ando. Contra actus in quo non sunt plures actus liberalitatis et sic liberalis si actus per prodigus quia dare et recipere debite ita et indebite et 2o ita in omni 2a omnis 1oe actus non sunt 2us debitas circumstantias sunt actus liberalitatis per ipso de dare et recipere liberalitas est circa usum pecunie sive vitis ex parte 40e ex actus est in dando et recipiendo sed ordinate quia ita per de aliis et libratis scilicet recipere et custodire sunt unius

et actus ad opus in est debite ordinatur in opus et sine quo opus non potest et ita liberalis et dare et recipere quod non potest dui quam in unificando recipere et custodire ut possit dare cui conveniens eius fuit quod sit dandum et nihil recipere ut custodire tenet et dare reliquisset pecunia ut dicit 3 phisicorum 1 hic quod gratia 3a Contra dare et recipere sunt principales actus liberalitatis quod recipere et custodire per accipere et custodire sunt actus liberalitatis inquantum ordinantur ad dare et recipere. Dare et recipere sunt actus principales quare quo proprie proximo quod ad ei quodcunque est sim et quod est eadem vero in propter contrarium proxima in illa quas inde ibi si placet. sed mansuetus colericus euitat maius malum i. ira quia non solum est bonum acquirere bonum sed et bonum est euitare malum sed videtur mansuetus colericus euitat iracundiam que est maius malum quam irascibilitas quam euitat mansuetus flegmaticus. 2º ista virtus est melior que reducit hominem a maiori malo ad bonum quam ista que reducit hominem a minori malo sed mansuetudo reducit aliquem a maiori malo scilicet a iracundia ad bonum et flegmatici a minori malo scilicet ab irascibilitate ad bonum et antecedens patet quia cuilibet ista est actu reducit a actu sufficientem adaliter [illegible] et inde suppositio [illegible] 3º virtus colerici est cum difficultate et est melior quam [illegible] autem quia reprimit iram vbi virtus flegmatici debet incedere [illegible] ebonus est magis laudandus qui plus inclinatur ad malum sed sic est de colerico mansueto [illegible] colericus [illegible] affirmatur fit bonus ex quo difficilius fit bonus quam flegmaticus qui magis naturaliter fit bonus sed qui magis naturaliter fit sic est melius. Oppositum arguitur qui plus habet de bono est melior sed flegmaticus plus habet de bono i. a felicitate que est maximum bonum in inmo bonorum quantum sit eligibilior sed [illegible] flegmaticus habet bona inclinatione adiunctam quam non habet colericus ergo ista addita virtuti faciet ipsum meliorem. 2º ille est melior qui minus est labilis ad malum sed sic est de flegmatico. 3º ille est melior qui habet virtutem mediatam ad bonum quam qui habet [illegible] mediatam ad malum sed flegmaticus naturaliter inclinatur ad bonum et non colericus et antecedens de se quarta et inde [illegible] dicitur verbum de se. Non quia haec questio uult [illegible] per hoc soluitur per viam eadem ut ex mansuetudine virtus mobilis sit melior in colerico quam in flegmatico. 2º via eadem ut ex mansueta virtus mansuetudinis sit melior ipsi colerico quam ipsi flegmatico ergo de primo mansuetus colericus sit melior mansueto flegmatico. Quantum ad primum patet quod per viam mansuetudinis ex ista [illegible] colerico et flegmatico non est melior in colerico quam in flegmatico quia virtus ex mansuete [illegible] ex bone [illegible] autem [illegible] bonus et [illegible] quia virtus est magis [illegible] magis de bonus [illegible] dicitur [illegible] bonum. Contra [illegible] atque [illegible] colericus flegmaticus non sit [illegible] laudandi sed colericus est plus laudandus quia colericus acquirendo virtutem plus laborat quam flegmaticus sed ex operacionibus pluribus virtus [illegible] plus meretur et laudatur ut patet primo ethicorum. Contra 3ª mansuetudo [illegible] est melior colerico quam flegmatico ad istum [illegible] quia [illegible] colericus [illegible]

[illegible] naturalis [illegible] flegmatica [illegible] primam [illegible] Contra [illegible] colericus non est melior flegmatico [illegible] virtus [illegible] faciat hominem bonum [illegible] virtutes sunt [illegible] ipsi [illegible] bonum [illegible] flegmaticus est melior virtute naturali colerico [illegible] flegmaticus habet virtutem naturalem mediante ipsam ad mansuetudinem sed colericus non [illegible] [illegible] [illegible] affabilitas [illegible] amicitia sit virtus mobilis [illegible] affabilitas

[illegible] affabilitas non est virtus cum [illegible] quia non est [illegible] ad [illegible] affabilis ad omnes [illegible] amicitia non [illegible] 2º amicitia non habet speciale obiectum [illegible] ergo non est specialis virtus [illegible] virtus autem quia amicitia [illegible] colloquia [illegible] virtus [illegible] politica [illegible] non habet obiectum speciale. nomen hoc [illegible] [illegible] [illegible] [illegible]

in quo pseruit sanguinem per ipsum ad tertium
dico quod tenet nos sicut quia magis dignum
est stare ibi efficacie et verum ut pro parti
tum. Nam ista oratio consecrationis differt
in hoc ab aliis orationibus quia alie sunt
indicative id est aut indicativa et cum
hoc effectiva principem 1 creativum et
super naturam sibi tradita ab eo hec quo.

Deinde videndum est de forma consecrationis
sanguinis que sic est hic est
calix sanguinis mei et bibite. Quod non sit hec for-
ma est bona tamen patet quia in sententiis re-
liquisset tamen quod est falsum quia posuit ista
hic est sanguis meus quia necesse est dicere quod
2o sic forma quam cibus non determinat non
est tenenda sed predicta forma non est posita
per evangelia quia in luca habetur quod forma sic
est calix in sanguine meo sed in marco et
matheo habetur hic est sanguis meus
quod 3o sic forma includit superfluum non ha-
bet sed predicta forma est huiusmodi ergo quia
mea potius calix qui non est de essentia
sanguinis cum potius sit vas et accidentale
sacramenti quod 4o in oppositum est doctrina apostolorum et
consuetudo ecclesie unde sanctum ... ordinavit
romana ecclesia hec per formam tenuit quod
apostolus qui ea ipsum doctrinas et suis docu-
erunt accipite sunt a petro et paulo quos
unus doctores sunt et defunctos esse
dicit sunt nimis probationem et in mobili sta-
bunt quod 4o quorum est notandum quod quamvis
forma consecrationis sanguinis specialis et pro-
pria est tertio et declarativa sine ac-
cidentalis 2a quod distinctionem ad quorum dico
dico primo quod forma specialis est hec hic est
calix sanguinis mei quod per formam includit
omnia verba usque in eam fundendi verum in
sanguinem ista est specialis et possit propria p.
dicta est hic quo ... secundum p ambrosium
in 4o sententiarum de sermone ibi efficitur sacramentum ergo ipsa
est specialis quod 2o dico quod forma tertio et
declarativa est ista accipite et bibite hic est
calix sanguinis sanguis mei novi et
eterni testamenti misterium fidei qui pro vobis
et pro multis effundetur in remissionem peccatorum
ad probationem sic omnis forma explanans
debitum sacramenti et eius efficaciam et decla-
rans dignitatem probanti et sola et ista est

totalis sine accidentalis predicta est hec dicit quod 3o
nec non hoc declarativa quia cum dicit accipite
et bibite et ... et usum sacramenti
unus sed cum dicit novi et eterni testamenti
tangitur efficacia sunt in novitate huius sacramenti
et sacramentum innovatum quod veteris legis quod
consistebat in oblatione sanguinis temporis
et omnium cessabat in ingratitudine sanguinis
per divinitatem et in eius prime sed cum ad divinum
misterium id est secretum fidei accidentia sed
dicit que autem hoc sacramentum sunt secreta
et per ipsum velata quia fides in hoc sa-
cramento plus requiritur quam in aliis ideo ibi
additur fidei qui pro vobis id est nullis apostolis
et pro multis id est pro gentibus quia nihil participa
et gentiles multi per hoc sacramentum fuerunt
de primo ideo quia pro vobis id est pro predicantibus
et pro multis id est pro committendis et pro doctrinis
et per ordinem sacramentum effundetur in remissionem
peccatorum tam venialium et mortalium oblitorum
et fiunt tam oblationem ...m post hec
forma includens quod non valeret predicta
est hoc quia dicit novi et eterni testa-
menti sed novum et eternum non potest sic stare
ergo quod 3o sic si misterium fidei esset necessa-
rium ponendum tunc eadem ratione ponendum misterium
nus aliorum sacramentorum quod quod sacramentum est in
secretum fidei et 4o sic effusionem pro vobis omnibus
sed sanguis eius non potest per apostolos nec sacerdotibus
sed non debet poni pro vobis et multis ergo sic
est de necessitate effundetur tunc ... tenent mclavium
forma confitendi nec nos quia ... non di-
cunt effundetur sed qui pro vobis et pro multis
effusus est quod 5o sic si in remissionem
peccatorum esset de forma sacramenti sanguinis tunc
magis esset de forma baptismi quia baptismus
immediatius ordinatur in remissionem
quam sacramentum sanguinis quod ad ista vide per
ordinem ad primum dico per ordinem quod
nobis potius inferunt ad designandum principium
huius sacramenti eterni autem potius ad designandum
quod teneat fine et sic novi et eterni oppositi
diversis supra non est dicit quod ad 2um dico
quod misterium id est secretum nec omnia sacramenta
probans est magis sacramentum et ideo non ponendum
de misterium fidei quod ad 3um dico quod sit quo
ad quo ad sufficientiam pro omnibus effusus
est effusus quod sufficit non tamen omnibus

peccatis sed tamen que ad confitendum sic confuse

ceremonia tamen non est sacramentum nove legis [illegible]
quia erat principium in paradiso [illegible]
[illegible] et ad [illegible]
est apostolus ephesiorum 5. Octava materia
hoc sacramentum scilicet matrimonium. Et [illegible]
quod duplicia sunt sacramenta quedam depen-
dent totaliter ex institutione ut sacramentum
baptismus quedam dependent quodam-
modo ut penitentia et matrimonium quia
[illegible] homini videtur fieri [illegible]
monium et [illegible]

[illegible] matrimonium est sacramentum [illegible]
nove legis probatur sic. [illegible]
est sacramentum [illegible] quod significat [illegible] matri-
monium est [illegible] ergo etc. 2o sic quia
si non esset [illegible]
sacramentum nove legis quod est [illegible]
sic omnis ordinatio [illegible]
missionem peccatorum est [illegible]
[illegible] quia valet ad [illegible]
[illegible] contra concupiscentiam. Augustinus
sic illud quod non est collativum gratie [illegible]
non est sacramentum nove legis matrimonium est
huiusmodi ergo etc. Ad oppositum [illegible] quia [illegible]
[illegible] dicunt sacramenta nove legis [illegible]
[illegible] probatur quia matrimonium
consistit in consensu [illegible]
non [illegible]
voluntatis hominis ergo non matrimonium
[illegible] est [illegible] concedendo [illegible]
et negando tercium. Ad probationem dico quod
matrimonium non solum consistit in [illegible]
et in consensu sed etiam in actu [illegible]
[illegible] dicitur copula carnalis
est [illegible] ergo non est sacra-
mentum. Dico quod licet copula carnalis
sit [illegible] in se quando [illegible]
legitime [illegible] est [illegible]
Ad tercium [illegible] dico quod in
sacramentis non totaliter ex institutione depen-

[illegible] et sic est in proposito de matrimonio
quod ad 2m [illegible] et [illegible] ad

dico quod matrimonium et omne sacramentum efficit
illud quod [illegible] continentie et
ideo [illegible] matrimonium significet [illegible]
[illegible] et non contineat ergo oportet
quod ipsum efficiat. Ad 2m [illegible]
tendo [illegible] et negando minorem
Ad probationem dico quod si matrimonium in ve-
teri lege significative [illegible] in nova

Queritur [illegible] matrimonium [illegible]

[illegible] est [illegible]
et [illegible] in [illegible]
matrimonium [illegible] defectus etatis non [illegible]
[illegible] patet [illegible] non potest esse [illegible]
matrimonium [illegible]
[illegible] quod defectus etatis impedit matrimonium [illegible]
[illegible] sicut est [illegible] ante [illegible] annum
et femella ante [illegible]
[illegible] sunt impossibiles
[illegible] matrimonium [illegible] sed in pueris
defectus [illegible] sunt impossibiles ergo [illegible]
[illegible] quia [illegible]
[illegible] sunt [illegible]
et [illegible] apud pueros non [illegible] fieri 2o sic
[illegible] deficit [illegible] voluntatis [illegible]
[illegible] matrimonium sed sic est in pueris ergo etc.
Ad oppositum [illegible] inter [illegible] quod

carent libera voluntate sine consensu duo
rum et puteri non possunt contrahere ma
trimonium. Ex quo declaratur quia pue
ri eo copulati in infantia antequam ad de
bitam etatem pervenerint pro matrimonio
se non habeantur patet. Et hac quia tunc ca[illegible]
aliqui sunt liberam voluntatem cum
ad annos discretionis pervenerint quia ra
tiones pueri ad prima negatur. Ad a[illegible] ad
probationem dico quamvis baptismus sit
perfectius sacramentum tamen quia est maxime
necessarium ad salutem eternam ideo in bap
tismo sufficit fides parentum loco pueri
in matrimonio autem requiritur discretio
in contrahente. Quod ad 2am conceditur
a[illegible] et negatur hoc ad probationem dicitur licet
pueri aliqui sint discreti ex bonitate
complexionis omnibus tamen ista discretio non
est valida sed insufficiens pro [illegible]
quia ad veram discretionem requiritur ex
perientia et pluralitas temporis que non
est in iuvenibus. Quod ad 3am conceditur
quia ad improbationem dicendum quod in senibus
actu in matrimonio consistentibus sufficit
potentia cognoscendi prefuisse et quia hec
numquam fuit in iuvenibus ideo est dissimile.
Secundum dubium sacer ordo impediat matrimo

QUERITUR nium et videtur quod non
sicut se habet matrimonium
ad sacrum ordinem sic sacer ordo ad ma
trimonium sed matrimonium non impedit sacros
ordines ergo nec e converso. Antecedens [illegible] non capsli [illegible]
[illegible] quia ducens virginem in matrimonio
contracto et ipsa mortua [illegible] potest fieri
[illegible] presbiter. Quod 2o sic maioris [illegible]
non impedit minus sed sacri ordines sunt
magis [illegible] sacramentum quam matrimonium ergo [illegible]
[illegible] non quia sed non impedit non impedit
nec minus [illegible] probatur de se quia [illegible] est
[illegible] quod [illegible] 3o sic sicut se habet
[illegible] ad matrimonium [illegible]
sic et sacer ordo sed [illegible] non
impedit matrimonium ergo nec sacer ordo [illegible]
[illegible] [illegible] [illegible] est [illegible]

[illegible] est [illegible] et ideo non impedit [illegible]
¶ In oppositum est dominus Albertus in decretalibus
in sacris ordinibus constituti matrimonium
non contrahant. Dicendum quod pro quo est
sciendum quod duplices sunt ordines sacri
scilicet maiores et minores. Minores sunt ut
hostiarii lectores exorciste et acoliti.
Maiores ut subdiaconi et presbiteri etc.
tunc dico ad questionem quod constituti in minoribus
ordinibus sacris possunt contrahere matrimonium
probatur sic. Et illud quod magis videtur in esse
in est [illegible]. Sed minus videtur quod acoliticus
possit contrahere quam alii inferiores ordinum
[illegible] acoliti non [illegible] [illegible] declaratur
quia acolitus non est [illegible] ad [illegible]
[illegible] [illegible] nec [illegible] [illegible]
[illegible] [illegible] 2o dico ad questionem quod constituti
in maioribus ordinibus sacris non possunt con
trahere matrimonium et si contrahunt divortian
tur. Probatur sic in quibus divisio ab [illegible]
[illegible] est [illegible] [illegible] non debent [illegible]
[illegible] sed constitutis in maioribus ordinibus
[illegible] est divisio ab [illegible] sed
[illegible] per dispensationem pape [illegible] est
non [illegible] est [illegible] quod 2am [illegible]
argumentum sic sicut [illegible] [illegible] constituto
est [illegible] in nova sicut in veteri lege
sacerdotium non impediebat matrimonium ergo nec
in nova lege [illegible] non quia [illegible]
fuit [illegible] nomine [illegible] non [illegible]
[illegible] sed ad [illegible] [illegible] probatur de se quia
[illegible] [illegible] [illegible] [illegible] [illegible]
ad [illegible] [illegible] [illegible] ad probationem [illegible]
[illegible] [illegible] non solum legerat [illegible]
tamen ipsum solum in [illegible] [illegible]
[illegible] in nova lege [illegible] [illegible]
[illegible] sed in veteri lege hoc non fiebat quod [illegible]
[illegible] ad primam negatur. Ad [illegible] quia [illegible]
[illegible] matrimonium precedit sacros ordines
et ergo [illegible] [illegible] [illegible]
ordinem [illegible] quod ad 2am [illegible] [illegible]
[illegible] bona sunt [illegible] [illegible]
[illegible] in [illegible] [illegible] non [illegible] tamen [illegible]
est [illegible] quod ordo et matrimonium [illegible]
[illegible] in esse. Quod ad 3am [illegible] [illegible]
[illegible] [illegible] [illegible] [illegible] est.

coactio ad matrimonium quedam est restitutiua et simpliciter contrahit seu exigit ut matrimonium quod illud est coactio propter ut si aliquis fecit actum quod non possit ad ipsum casu dico quod [illegible] coactus in matrimonio ideo ne contrahat matrimonium si coactus [illegible] non impedit matrimonium [illegible]

26 **Queritur**

[illegible] diuortiata possit matrimonium contrahere. videtur quod sic [illegible] qui non debet mechari debet matrimonium contrahere sed diuortiata est [illegible] quia [illegible] quis potest facere diuortium propter fornicationem [illegible] uxore dimiserit mechabitur [illegible] in precepto [illegible] non [illegible] omnis [illegible] libera potest matrimonium contrahere sed [illegible] diuortium [illegible] potest non contrahere [illegible] qui non debet esse [illegible] diuortiata non debet esse [illegible] non [illegible] in [illegible] non est [illegible] [illegible] quod [illegible] est [illegible] non discessit et si discessit [illegible] via debet reconciliari [illegible] diuortiale [illegible] quod [illegible] vtrique viuente [illegible] potest matrimonium contrahere tamen vna mortua [illegible] potest contrahere [illegible] matrimonium [illegible] matrimonium si [illegible] vtrique [illegible] et vna mortua [illegible] diuortiat [illegible] est [illegible] diuortiant [illegible] matrimonium ut si non possit [illegible] quod [illegible] diuortiati [illegible] matrimonium ad 2am [illegible] est libera et soluta [illegible]

[illegible] que [illegible] diuortiante [illegible] soluta [illegible] matrimonium [illegible] [illegible] quia si [illegible] et [illegible] ad matrimonium [illegible] non [illegible] diuortiati [illegible] simul [illegible] possit in
